

Job Title: Sr. Healthcare Consultant II (s) (full time; multiple openings), Job Code – CTI40

Work Experience Required: 2 year

Location: Princeton, New Jersey and various unanticipated locations throughout the U.S

Duties:

- To work with client's business unit to understand business problems and conceptualize how product features can solve the business problems.
- Capture project business requirements and develop healthcare workflows.
- Coordinate with product managers/owners to finalize product backlog, acceptance criteria, and release plan.
- Prepare technical documents, including project specifications as well as materials for use in training business users on the new software application.
- Act as a liaison between the business users and the technical team executing the project.

Must have Master's Degree (or foreign equivalent) in Computer Science, Engineering (any), Business Administration, or related field, plus two years of IT experience. One of the two years must include experience with HL7; JIRA; and the Agile Scrum methodology. In lieu of the above education and experience requirements, we will accept a Bachelor's Degree (or foreign equivalent) in Computer Science, Engineering (any), Business Administration, or related field, plus five years of progressive post-bachelor's IT experience. One of the five years must include experience with HL7; JIRA; and the Agile Scrum methodology. Any suitable combination of education, training, or experience is acceptable. All experience may be acquired concurrently. Travel and relocation required, to be reimbursed by employer. Incidental telecommuting permitted. EOE M/F/D/V.
