Job Title: Sr. Healthcare Consultant II (full time; multiple openings), Job Code – CTI26

Work Experience Required: 2 years

Location: Princeton, New Jersey and various unanticipated locations throughout the U.S

Duties:

- Work with client's business unit to understand business problems and conceptualize how product features can solve the business problems.
- Suggest new software features to improve business functions.
- Conceptualize and implement end-to-end solutions for clinical data integration.
- Prepare clients solution backlog, user stories with descriptions, and user acceptance criteria.
- Act as a liaison between the business users and the technical team executing the project.
- Map data elements from multiple sources with the Transaction Repository and use mappings to define parsing logic.
- Perform data analytics on parsed data.
- Identify issues in source data and provide relevant data to downstream applications.

Must have Master's Degree (or foreign equivalent) in Computer Science, Business, Engineering (any), or related field, plus two years of IT experience. One of the two years must include experience with HL7, Microsoft SQL, Visual Studio and JIRA. In lieu of the above education and experience requirements, we will accept a Bachelor's Degree (or foreign equivalent) in Computer Science, Business, Engineering (any), or related field, plus five years of progressive post-bachelor's IT experience. One of the five years must include experience with HL7, Microsoft SQL, Visual Studio and JIRA. Any suitable combination of education, training, or experience is acceptable. All experience may be acquired concurrently. Travel and relocation required, to be reimbursed by employer. Incidental telecommuting permitted. EOE M/F/D/V.

Please apply by forwarding resumes to CitiusTech Inc. at us_jobs@citiustech.com. Please indicate the reference code(s) with respect to your position of interest in your communication. CTI26
