Job Title: Sr. Quality Assurance Manager (full time; multiple openings), Job Code – CTI27

Work Experience Required: 2 years

Location: Princeton, New Jersey and various unanticipated locations throughout the U.S

Duties:

- Plan and manage the Quality Assurance (QA) and testing phases of IT projects for the Healthcare Industry.
- Monitor the performance of project team members while facilitating duties.
- Collaborate with Quality Assurance team to create detailed test plans and test cases.
- Analyze test results to ensure compliance to design requirements.
- Develop test reports to describe testing results, corrections, and program evaluation.
- Log defects and communicate test results to development teams.
- Perform system integration, regression, and user acceptance testing.
- Generate SQL queries to extract and validate system integration test results.

Must have a Master's Degree (or foreign equivalent) in Computer Science, Engineering (any), or related field, plus two years of IT experience. One year of the two years of IT experience must include experience with Azure DevOps, Selenium, .Net, and SQL Server. In lieu of the above education and experience requirements, we will accept a Bachelor's Degree (or foreign equivalent) in Computer Science, Engineering (any), or a related field, plus five years of progressive post-bachelor's IT experience. One of the five years must include experience with Azure DevOps, Selenium, .Net, and SQL Server. Any suitable combination of education, training, or experience is acceptable. All experience may be acquired concurrently. Travel and relocation required, to be reimbursed by employer. Incidental telecommuting permitted. EOE M/F/D/V.

Please apply by forwarding resumes to CitiusTech Inc. at us_jobs@citiustech.com. Please indicate the reference code(s) with respect to your position of interest in your communication. CTI27
