

Building Next-gen Medical Device Solutions

Accelerating Innovation and Connectivity

CitiusTech has been working closely with medical device leaders for over a decade, delivering strategic digital initiatives across the device ecosystem. Our digital and product engineering capabilities, combined with deep healthcare domain expertise, enable these organizations to solve industry challenges such as connecting smart devices, remote monitoring, patient and provider engagement, self-management, digital therapeutics, device recalls, and operational excellence.

We facilitate patient-centric care by leveraging IoT-enabled devices, wearables, and SaMD. Our expertise spans **across digital transformation, interoperability, device platforms, serviceability, legacy modernization, AI/ML, cybersecurity, automation, and achieving value-based care** goals.

At CitiusTech, we prioritize quality and regulatory compliance. We build, test, and implement mission-critical technology with our quality and regulatory compliance practices. Our QMS solutions support industry standards such as **ISO 13485, ISO 14971, IEC 62366, and IEC 62304** to ensure quality, process, and regulatory compliance

Key Offerings

- *Device connectivity and clinical workflow integration*
- *Cloud enablement and remote management*
- *SaMD and digital therapeutic apps*
- *Digital health platforms*
- *Patient / provider engagement and virtual care solutions*
- *Clinical decision support and AI/ML*
- *Serviceability digitization and intelligent monitoring for device health*
- *Regulatory and quality compliance*
- *Supply chain management*
- *Salesforce transformation*

250+

Medical device professionals

30+

Medical device engagements

25+

Types of medical devices connected

ISO 13485:2016

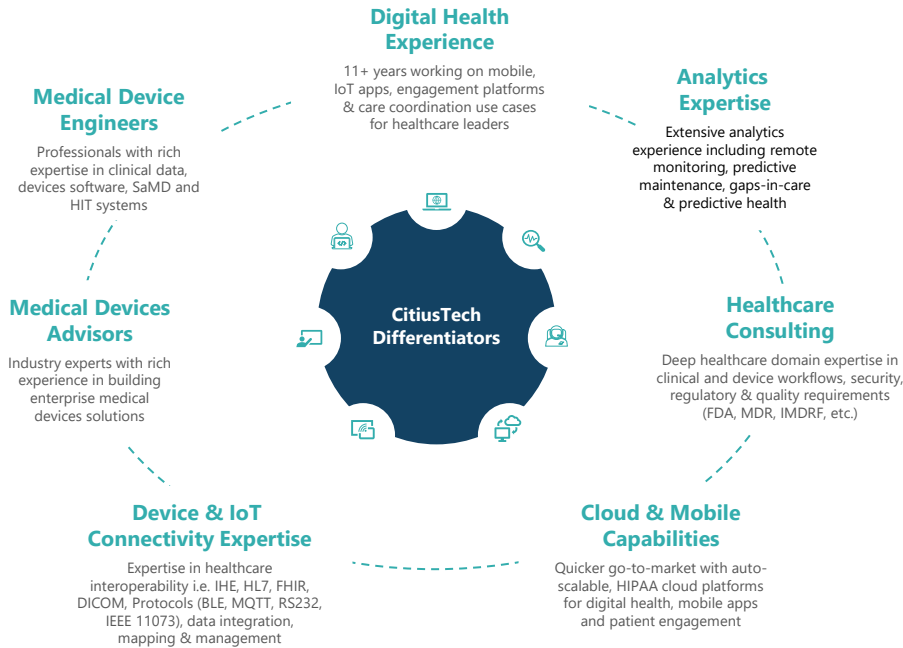

Certified for medical device QMS

IEC 62366:2015

Usability engineering of medical devices

IEC 62304:2019

Medical device software lifecycle processes

Customer Value

- **Fast track regulatory compliance** through ISO 13485-certified QMS
- Strong technology partner ecosystem, **accessing SMEs to deliver superior solutions**
- **Reduced operational costs** through predictive device maintenance
- Engineering accelerators **accelerate go-to-market**
- Cost-effective product development

About CitiusTech

With 8,000+ healthcare technology professionals worldwide, CitiusTech helps leading healthcare and life sciences organizations reinvent themselves by accelerating digital innovation, leveraging next-gen technologies and driving data convergence across the healthcare ecosystem. We provide strategic consulting, digital engineering, data, analytics & AI, specialized platforms and end-to-end solutions to over 130 organizations across the payer, provider, medtech and life sciences industries. Our key focus areas include healthcare interoperability data management, quality performance analytics, value-based care, omni channel member experience, connected health, virtual care delivery, real-world data solutions, clinical development, personalized medicine and population health management.

Our cutting-edge technology expertise, deep healthcare domain expertise and a strong focus on digital transformation enables healthcare and life sciences organizations to deliver better outcomes, accelerate growth, drive efficiencies, and ultimately make a meaningful impact to patients
