

CitiusTech's Perform+ Suite

CitiusTech Perform+ Suite: Overview

CitiusTech's Perform+ suite of data strategy and performance analytics products empowers healthcare organizations to align and improve patient care insights and outcomes across all programs. Built on an enterprise-grade platform, our suite addresses the regulatory, value-based contracting, and PHM needs of HEDIS, Stars, and state programs.

The Perform+ suite is highly configurable, enabling multiple teams to manage their individual initiatives, providing executives with a big-picture view, and helping providers with self-service tools for clinical improvement. Empowered with these capabilities, providers can efficiently negotiate, monitor, and improve their outcomes while maintaining or improving profitability. Leveraging the entire suite supports quality and cost improvement strategies.

Scale Value with Perform+

Key Offerings

Modern Data Strategy

- ▶ Real-time data access with centralized data and analytics
- ▶ Supplemental data collection and data integration

Internal Program Alignment

- ▶ Single solution for all regulatory reporting programs: HEDIS, MIPS and ACO
- ▶ Patient-centric, value-based approaches

Provider Engagement and Payer Management

- ▶ Centralized solution enables informed decision making
- ▶ Standardized performance metrics and incentives to close gaps-in-care faster
- ▶ Shared and common view of patient care and outcomes

Patient Intelligence

- ▶ Actionable insights to improve performance
- ▶ Plan performance benchmarking
- ▶ AI to prioritize actions & gaps

CitiusTech: Perform+ Suite: Data & Performance Management

Customer Value

Enabling providers, health plans and health systems to coordinate multiple programs, driving performance and innovation via synchronized coherent provider management.

- Manage value-based initiatives more efficiently through drill-down provider scorecards
- Perform+ improves data quality and data transformation
- Rules Engine and Rules Management Module enables custom KPIs
- Extended BI capabilities include clinical quality measure analytics and reporting
- Robust healthcare data model processes high-volume data
- SaaS-based model promotes speed-to-value across Perform+ products

About CitiusTech

With 8,000+ healthcare technology professionals worldwide, CitiusTech helps leading healthcare and life sciences organizations reinvent themselves by accelerating digital innovation, leveraging next-gen technologies and driving data convergence across the healthcare ecosystem. We provide strategic consulting, digital engineering, data, analytics & AI, specialized platforms and end-to-end solutions to over 130 organizations across the payer, provider, medtech and life sciences industries. Our key focus areas include healthcare interoperability data management, quality performance analytics, value-based care, omni channel member experience, connected health, virtual care delivery, real-world data solutions, clinical development, personalized medicine and population health management.

Our cutting-edge technology expertise, deep healthcare domain expertise and a strong focus on digital transformation enables healthcare and life sciences organizations to deliver better outcomes, accelerate growth, drive efficiencies, and ultimately make a meaningful impact to patients.
