

Powering the Future of Healthcare ▶

PERFORM+ Contracts

Unmatched oversight across
all your contracts and
performance measures

Holistic approach ensuring strong alignment between payer and provider groups

AI/ML- powered, actionable insights to improve performance of value-based programs

Centralized mechanism for provider organizations to manage provider performance, goals, and incentives

End-to-end solution for provider performance management

PERFORM+ Contracts is a highly-configurable product that gives health plans and provider groups complete control over their value-based contracts. It also enables providers to enhance performance and drive results through self-service dashboards.

PERFORM+ Contracts: Advantages

PERFORM+ Contracts provides organizations a centralized mechanism to manage provider performance, goals and incentives across multiple quality programs.

- **Improve transparency** across contract performance with a consolidated view of all provider programs
- **Streamline** creation, management, and monitoring of value-based programs
- **Enhance speed-to-market** with easy configuration and the ability to launch new programs in days versus months
- **Improve flexibility** with multiple program types; managed on a single, centralized solution
- **Accelerate provider adoption** with self-service tools that enable them to take charge of their own performance
- **Leverage AI & Data Science models** that aid decision making for value-based programs, to help enhance care and drive down cost

Realize cost savings

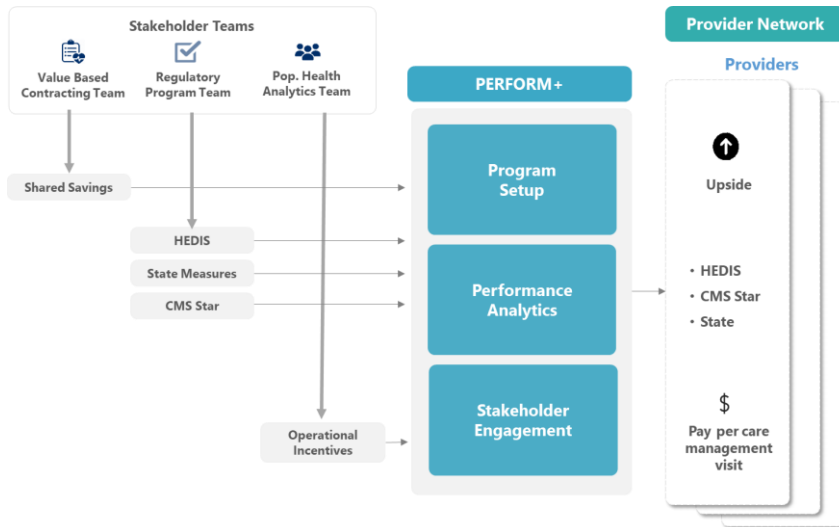

Track & improve quality of care

Reduce provider abrasion

PERFORM+ Contracts: Solution Components

Empower Your Provider Network & Drive Value

Achieve alignment across provider network and initiatives

Streamline efforts to drive greater cost efficiencies

Understand and act on areas of improvement goals within your provider network

Align strategic quality, value, and cost initiatives

Empower providers to take charge of their care, quality & utilization management

Standardize metric selection and compensation definitions across the provider network

Program Setup	Highly-configurable module enables provider network teams to customize and implement the management framework quickly and seamlessly.
Performance Analytics	Pre-built, customizable dashboards and scorecards. Provider performance analysis across multiple parameters, revealing findings for future programs.
Stakeholder Engagement	Scorecards, prioritized task lists, provider self-service capabilities, and configurable workflows to improve payer-provider engagement.
