

CitiusTech's Quality Management Platform Perform+™ Receives NCQA Certification for HEDIS® MY2022 Measures

NCQA grants its 10th consecutive certification to a CitiusTech solution, validating its capabilities for processing critical information for accurate and automated performance measurement, including HEDIS reporting.

Princeton, N.J. (August 4, 2022) - [CitiusTech](#), a leading provider of healthcare technology solutions and consulting services, has received the National Committee for Quality Assurance (NCQA) Healthcare Effectiveness Data and Information Set (HEDIS®) certification for [PERFORM+™](#) its healthcare quality management and analytics platform. This marks the 10th consecutive year that CitiusTech has received this certification.

NCQA certified [PERFORM+™](#) for the HEDIS® Measurement Year 2022 (MY 2022) reporting season with coverage of performance measures, including administrative and hybrid measures, allowable adjustment, Electronic Clinical Data System (ECDS) rules, and systematic sampling. HEDIS® is one of healthcare's most widely used performance improvement tools with over 191 million people enrolled in plans that report HEDIS® results.

"As regulatory requirements around NCQA HEDIS measures keep evolving, CitiusTech PERFORM+™ has evolved to help health plans stay many steps ahead of the changes. We are helping our customers leverage the accelerated HEDIS timelines for prospective collection, Star ratings improvement, value-based agreements, and population health initiatives. As quality becomes the center of payment across all these programs, our solution helps payers align with providers while driving quality outcomes and saving costs." said Jeffrey Springer, Senior Vice President of healthcare solutions at CitiusTech.

Powered by a robust rules engine, PERFORM+™ covers a variety of regulatory (HEDIS®, HCC, CMS, Star, Adult/Child Core Set, QRS, AHRQ, State & custom), contractual, operational, and financial initiatives. PERFORM+™ clients include leading Blues plans, multi-state Medicaid plans, large provider-sponsored health plans, and large provider groups.

PERFORM+™ includes PERFORM+ Regulatory, an end-to-end HEDIS performance management product that identifies opportunities for quality improvement by monitoring quality improvement initiatives, tracking performance, accelerating quality reporting, and enhancing collaboration for gap closure.

CitiusTech is releasing early upgrades to PERFORM+™ that align with NCQA's timeline, making it possible for clients to run certified measures during Measurement Year 2022. Additionally, CitiusTech is committed to NCQA's focus towards digitizing quality measurement to help drive equitable outcomes and address social determinants of health, by leveraging emerging interoperability standards.

About CitiusTech

CitiusTech (www.citiustech.com) is a leading provider of digital technology and consulting services to payer, provider, medical technology, and life sciences companies. With over 7,500 healthcare technology professionals worldwide, CitiusTech powers healthcare digital innovation, business transformation and industry-wide convergence for over 130 organizations, through next-generation

technologies, solutions, and products. Key focus areas include healthcare interoperability, secure data management, quality and performance analytics, value-based care, patient experience, medical imaging, connected health, payer-provider convergence, care coordination and population health management.
